Florida Virtual School® Launches New Spanish 4 Honors Course

Orlando, FL (May 31, 2018) – Florida Virtual School (FLVS®), a statewide online public school district in Florida, is now offering Spanish 4 Honors course for high school students in grades 9-12. This year-long, one-credit course, is offered for students who are to advance after they have taken the proper prerequisites.

This course will allow students to command the Spanish language by embarking on an immersive journey through rich traditions and superstitions. By meeting real people and hearing their stories, students will expand their language skills, gain new vocabulary, and better understand their role as global citizens. This course also features a speech practice tool that provides students with multiple opportunities to speak in the target language, replay their audio, and compare their pronunciation to the target language. Students can also reference an extensive library of custom instructional and dialogue videos that the course provides.

In this course, students will learn more advanced language structures and idiomatic expressions, with an emphasis on conversational skills. The course will also teach additional growth in vocabulary for practical purposes, including writing. Students will learn through authentic readings such as newspapers, magazines and literary works from Spanish speaking cultures around the globe.

In addition to Spanish, FLVS offers several other world language courses. Students can take varying levels of Latin, Chinese, and French. To learn more about these offered language courses, please visit <https://www.flvs.net/online-courses>.

About Florida Virtual School

[Florida Virtual School® \(FLVS®\)](https://www.flvs.net) is a fully accredited, statewide public school district offering more than 150 courses to Kindergarten-12 students. Its certified teachers use a variety of personalized instructional programs to create individualized educational plans for every student. Since 1997, FLVS students have successfully completed more than 3.6 million semester enrollments. FLVS also provides its courseware and expertise to online and blended learning programs across the nation. Services include content licensing, FLVS Global School, District Virtual Schools, digital learning labs, and professional development. As a not-for-profit, FLVS reinvests revenue into the development of new educational technologies and the creation of the highest-quality courses, benefiting students in Florida and beyond.
